

It is dismaying to our family that Sinclair Broadcasting has made the decision to force their stations to air a so obvious partisan documentary- what I would call a 2 hour ad. It also concerns us that one company can own so many stations- the net effect is that one voice is is shouted and smaller voices are never even allowed the chance to speak. Use of the the public airwaves should be considered a community privilege and not a privilege for only the rich. Democracy is threatened by actions such as those to be taken by Sinclair Broadcasting. Sinclair's actions are a clear indication of just why we need to strengthen media ownership rules, not weaken them. Thank you.
